POULTRY LITTER CONTACT LIST * March 2022

This list is provided to help poultry farmers broaden their markets for selling their litter and handlers of fertilizer grade poultry litter. All contracts and negotiations are the sole responsibility of the buyer and seller. Your litter supplier is required to provide you with a fact sheet describing the requirements for the storage and land application of litter and a nutrient analysis of the litter that is less than three years old.

A link to the fact sheet is provided: <https://www.deq.virginia.gov/home/showpublisheddocument/8488/637552163540601259>
